3. Guest Speaker – Dr. Wiesenburg, Provost and Vice President for Academic Affairs
 - a. CoC addressed by Dr. Wiesenburg. Spoke to the Council regarding a faculty member refusing to teach a class. Was seeking support of the notion that chairs have the authority and responsibility to assign courses for teaching by faculty. More specifically, he was asking for support of Section 4.4 of the Faculty Handbook regarding the authority of the Chair to make curriculum decisions in a department. He also commented on the issue of chair compensation. He also commented on issues of salary compression, summer school/summer school compensation, and faculty salaries. He also spoke to mini-session money treated as under a RCM model. The initiatives will be made public shortly and quietly. There will be a public announcement by April 15th. He also spoke to the issue of increasing costs to operate the university. Also addressed the issue of departments' inability to meet the 20% of startup funds portion of packages.

On a separate issue, it was discussed regarding support for Section 4.4 of the Faculty Handbook. Discussion ensued. Eric will pen a statement for consideration by the members of the CoC with respect to the responsibility and authority of the Chairs to make decisions; that statement will be circulated to the membership for editing and an electronic vote.

- d. Faculty Handbook Committee CoC Representative – Tisha Zelner (Tisha reported that as it currently exists, IHL Board Policy is confusing with regard to when you must notify of non-renewal of contract and whether instructors get the one year of employment after being notified of no-renewal of contract as is typically done with tenure-track faculty. The CoC recommends not including instructors in this situation and should not have this one year of employment. Specifically, nursing was used as an example where the policy may not apply.)
